

# Idowu Adeniyi

Toronto, ON M9V1N8  
(416)402-0633  
adeniyi.idowu50@gmail.com

Highly motivated and creative Web Developer with a strong foundation in designing, developing, and maintaining web applications. Skilled in front-end and back-end technologies including HTML, CSS, JavaScript, and frameworks like React, with experience in server-side development using Node.js and PHP. Proficient in creating responsive, user-friendly websites and working with version control systems like Git. Experienced in collaborating within Agile teams to deliver high-quality, scalable web solutions. Strong problem-solving abilities, attention to detail, and a passion for staying up-to-date with the latest industry trends and technologies.

## Work Experience

### Web Development Projects

07/2024 to 09/2024

Humber Polytechnic  
North Campus, ON.

#### Number Quest Game (Individual Project)

- Developed an interactive game called "Number Quest" using JavaScript, allowing players to race towards a target number through strategic choices. Implemented dynamic gameplay logic, scoring system, and ensured responsive user interactions.

#### Movie Booking Page with Animations (Individual Project)

- Created a user-friendly web page for booking movie tickets using HTML, CSS, and JavaScript. Integrated animated transitions to enhance user engagement and a countdown timer for upcoming releases. Focused on delivering a seamless, responsive experience across devices.

#### Collaborative Calculator Application (Team Project)

- Worked with a teammate to design and build a functional calculator using JavaScript and basic math operations. Focused on implementing clear user interfaces and debugging functionalities collaboratively to ensure accuracy and ease of use.

#### JavaScript and Node.js Assignments

- Completed various lab assignments that involved developing full-stack applications using JavaScript, Node.js, and databases. These assignments helped solidify understanding of both front-end and back-end technologies, including CRUD operations and server-side scripting.

## Skills

JavaScript, HTML5, CSS, PHP, GitHub, MySQL, MongoDB, Docker. - 1 year

ASP.NET, jQuery, APIs, Node.js, React, Express.js, Figma, UI design. - 1 year
